A message of EIGHT words is zigzagged over FOUR consecutive 'lines' in this jumble of letters. It gives a fact about one of these creatures. Why is this so and why do they emerge?

Can you discover why?

Images and details of all these creatures that can be found at fresh water locations can be found online. Some information can be seen at <a href="http://www.freedrinkingwater.com/resource-guide-to-pond-animals-creatures.htm">http://www.freedrinkingwater.com/resource-guide-to-pond-animals-creatures.htm</a>
